Contact Blazar or the SEWP PMO if you are unsure whether a requirement fits Category A.

4. Fair Opportunity

The following clause is posted as it appears in the body of the SEWP VI contract.

A.1.13 FAIR OPPORTUNITY AND REQUESTS FOR QUOTES

Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office.

The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record, and available to all Government end-users.

If the Government issues a Request For Information (RFI) as part of market research, the Contractor may provide items not yet listed on their SEWP contract as part of a market research quote if: (1) all such items are clearly marked as not yet available on their SEWP contract; and (2) the contractor submits a technology refreshment request to add those products to their contract.

If the Government issues a Request For Quote (RFQ) or a Market Research Request (MRR), the Contractor may only respond with items available on their Contract and the price of each item shall be the no greater than the price in Attachment F SEWP database of record at the time the quote is issued. If the Contractor has insufficient items on their contract to fully respond to the Formal RFQ, the Contractor must respond with a No Bid.

Unless the RFQ specifically allows for partial quotes, the Contractor must respond fully to all requirements specified in the RFQ.

When submitting a quote to a government end-user, the contractor must clearly state the length of time the quote is valid. The contractor shall honor any order submitted within the stated time period of a quote.

When responding to an RFI or RFQ issued from the NASA SEWP RFQ on-line quoting system, the Contractor must respond as outlined in Attachment C: Contract Holder User Manual (CHUM).

Contract Holders are prohibited from using Government information posted on the NASA SEWP Contract Holder Only Page, such as RFQs, RFIs, etc., for purposes other than proposing on SEWP requirements. This includes Contract Holders providing third parties with SEWP information and requirements for the purpose of assisting companies, that are not SEWP Contract Holders, with providing unsolicited proposals to meet agency requirements already posted to the NASA SEWP RFQ on-line quoting system.

5. How to Obtain a Quote

Submit the requirement through the SEWP Quote Request Tool (QRT) on the SEWP website, or send it directly to Blazar. Include the agency, delivery location, quantities, required delivery date and any brand or specification requirements. Each Blazar quote states how long it is valid, and Blazar honors any order received within that period.

6. Ordering Process

1 The end user identifies the requirement and prepares a purchase request with funding.

2 The agency contracting officer issues a delivery order to Blazar Technology Solutions citing contract 80TECH26D0566. Agencies use their own delivery order forms and numbers.

3 The SEWP PMO reviews, processes and forwards the order.

4 Blazar fulfills the order. Modifications also route through the SEWP PMO.

Delivery orders should include:

- Delivery order number and issue date
- Blazar quote number and SEWP contract number 80TECH26D0566
- Applicable NAICS code and contract type
- Blazar mailing address and phone number
- Issuing office and ship-to names and mailing addresses
- Line items, pricing and total order amount
- Contracting officer signature, phone number and signature date

Orders missing required information may be delayed or not processed by the SEWP PMO. SEWP delivery orders are not subject to the Economy Act (FAR 17.500(b)).

7. Installation, Warranty and Support

Installation	Installation, configuration and other services are provided when they are included as line items on the quote and delivery order.
Basic warranty	Products carry the manufacturer's standard warranty, passed through to the government end user. Warranty terms are stated on each quote.
Extended warranty	Extended warranty and enhanced support coverage are available as separately quoted line items.
Technical and software support	Delivered under the manufacturer support entitlement purchased with the order. Blazar opens and coordinates support cases, returns and replacements with the manufacturer.
